CAREER OBJECTIVE

Third-year Computer Science student at the College of Computing, Khon Kaen University, with a strong interest in backend systems and scalable solutions. Experienced with Java and Spring Boot, Node.js, and PostgreSQL, supported by a solid understanding of modern software development practices. Seeking a Backend Developer internship to apply technical skills to real projects, learn established engineering practices, and build experience for a career in software development.

EDUCATION

2023 - Present

Khon Kaen University

College of Computing

Bachelor of Science in Computer Science | Third-year student

Focus: Backend Development, Database Design, and System Architecture

EXPERIENCE

2024

POS Pharmacy System

Backend Developer

Built a pharmacy point-of-sale system with Laravel 8 and MySQL. Implemented product and purchase management, Excel import and export, point-of-sale workflows, a Chart.js dashboard, and real-time notifications.

2024

Food Order App (UserEatAtHome)

Mobile Developer

Developed an end-to-end food ordering application with separate admin and user experiences using Flutter, Firebase, and Kotlin. Implemented real-time order status updates, complete order management, and instant notifications.

2025

E-commerce Backend API

Backend Developer

Built a RESTful API with Spring Boot 3.3.2 and Java 21. Added role-based user management for customers, sellers, and administrators, JWT authentication, multiple payment integrations, real-time WebSocket chat, and an analytics dashboard for administrators.

Game Key Marketplace

Full-Stack Developer

Developed an end-to-end e-commerce platform for buying and selling game keys with more than 15 technologies, including React 19, Node.js, Express.js, PostgreSQL, and JWT authentication. Implemented a digital wallet, Gacha and Mystery Box rewards, real-time search, an admin control panel, and support for Steam, PlayStation, Xbox, Nintendo, and Epic Games.

SKILLS

- Java & Spring Boot
 - React & Next.js
 - RESTful API
- Node.js & Express
 - JWT Authentication
 - Flutter & Kotlin
- PostgreSQL
 - Laravel & PHP
